## 3. Setup external tools

### Data Science tools

1. **Wildlife insights account**
  - Wildlife Insights tool is recommended for image processing and machine learning models management
    - Create an account
    - Create project
2. **AddaxAI account**
3. **Edge Impulse**
  - View available models
  - Add model to project
  - Train model
  - Download model

### Communication tools

1. **Trap NZ account**
  - Trap NZ comms tool is recommended for real time notifications from machine learning models and LoRaWAN comms
    - Create an account
    - Create project
    - Connect to a device
