## Wildlife Watcher User Guide

From wildlife.ai For Wildlife Watcher project

## Image processing

- Wildlife Insights image processing tool is recommended for image processing
- Users can access all required templates and documentation via the SD card, once deployment is ended
- User is required to:
  - Create an account with Wildlife Insights
  - Transfer the SD card from the camera to their laptop/computer
  - Upload the data template into Wildlife insights
  - Transfer/upload pictures into Wildlife Insights
  - Dev's guide to be used here
